

## Primary Component

Solar Panel + Technical Components

 Up to 4 data packets per day

 3 years of direct-to-satellite connectivity

 Solar-powered battery

 Operating temperatures from -20°C to +55°C (-4°F to 131°F)

Single-use Pin  
Applied using CERES RANCHER applicator

With CERES RANCHER, monitor your animals and receive updates up to 4 times per day via satellite. CERES RANCHER is redeployable.

### Pasture Feed Intake

Daily metrics on walking, grazing, resting and ruminating to inform your decisions.

### Data & Insights

Access valuable and secure insights about your animals on your choice of software.

### Timely Alerts

Triggered for significant behaviour change which may require investigation or if the animal leaves the boundary.

### GPS Location

Know where your animals are and where they've been.

### No Towers Needed

No additional infrastructure required.

### Plug & Play

Check in on your animals wherever you are in the world, 24/7.
