About Shearwell Data in the USA

With expertise in livestock identification and management spanning 30 years, Shearwell is a family and farmer-owned business, supporting livestock farmers in the USA and around the world. Sheep, cattle and goat tags are printed at our factory in Houston, Texas, and we pride ourselves on high levels of customer service, quick turnaround times and the durability and retention of our tags.

We have recently launched our new two-piece BOS range of high quality, durable ear tags. BOS tags feature a variety of print and layout options, blank write-on tags are also available and all in a wide range of size and color options.

EID Stick Reader - For Cattle & Sheep

Quickly and accurately identify livestock from their RFID number

Simple, powerful and reliable. Our Stick Reader is designed to handle the rigors of ranch life and features an easy single-button operation and a large display.

Wherever you are – in the pen, in a chute or out in the field – just point, scan, record, and store data for up to 16,000 animals across 26 management groups. Seamlessly transfer data via Bluetooth to your PC, Mac, Mobile Printer, or our apps, making livestock management easier than ever!

Easily see if you have read a tag!
Green light = new read
Red light = duplicate read

Optional extras
1 - Tough Case
2 - Mobile Printer

Modular Panel Readers
For Cattle & Sheep - Large & Small

Our panel readers can be configured quickly and easily within an existing set-up (non-metallic race) for fast, effortless recording of EID tags as stock run through the chute.
